72" × 36" × 21"

## Technical Specifications

| Letter | Description                                       | Measure |
|--------|---------------------------------------------------|---------|
| A      | Outside edge to center drain                      | 10 5/8" |
| B      | Outside edge to overflow                          | 4 1/4"  |
| C      | Total length                                      | 71 3/8" |
| D      | Total width                                       | 35 3/4" |
| E      | Bathing well length                               | 47 1/4" |
| F      | Bathing well width                                | 24 1/4" |
| G      | Deck width at backrest end                        | 4 1/8"  |
| H      | Deck width                                        | 4"      |
| I      | Height from bottom of bath to top deck            | 21 1/4" |
| J      | Height from bottom of bath to bottom of deck      | 19 3/4" |
| K      | Height from bottom of drain to center of overflow | 16 7/8" |
| L      | Maximum water level (Drain & overflow 16" x 35")  | 15 1/8" |
| M      | Slope of backrest                                 | 26°     |
| N      | Slope of backrest                                 | 26°     |

**A** AromaCloud® position. When the tile flange is added, the AromaCloud® will automatically be installed on the opposite side of the flange.  
**G** Control position when factory-installed (Mia® or DOT)   **T** Turbine position (TMU)  
● Indicates heated backrest (TMU)   ◉ Indicates WarmTouchShell® position (Soaker)

|                           |                                                                                                                                                                                                                                                                                                  |
|---------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hot water supply required | The hot water supply should be 70% or more of the bath's total water capacity.                                                                                                                                                                                                                   |
| Turbine                   | Access to the pump must be at least 18" x 22". Standard connection is 20 A, 120 V, 60 Hz, dedicated line with a Ground-Fault Circuit Interrupter (GFCI). For any additional option, a second line is needed 15 A, 120 V, 60 Hz, dedicated line with a GFCI. Air vent necessary: 2" x 4" minimum. |
| Others                    | The Geysair® is located on the same side as the heated backrest. It must not be relocated. It must be connected to the hot water supply and be accessible (provide access).                                                                                                                      |

Optional tile flange (specify front or back). When ordered with a factory-installed tile flange, the control will not be installed on the bath.

Our products must be installed by certified professionals only and according to our Owner's Manual as well as federal, provincial/state and local building codes and regulations ([www.bainultra.com/dealers/dealer-documentation-and-catalog](http://www.bainultra.com/dealers/dealer-documentation-and-catalog)).
