Our Sustainable Development Policy

LIVE SUSTAINABLY

At BainUltra we believe that inner wellness is achieved through daily, life-long attention to harmony with the world around us. BainUltra recognizes that wellness is at the core of every harmonious relationship, whether it involves our connection with family, friends, or the environment. Ecological awareness begins with respect for the life within us but then radiates outward, influencing others as well as future generations, so as to protect our precious Earth.

Because we also believe that innovation is part and parcel of green development, we now include the life-cycle approach and ecodesign in BainUltra's sustainable development policy.

We are especially proud to offer products that make a contribution to individual and collective well-being. BainUltra trusts that, through our focus on the everyday wellness of individuals, we are also taking steps to promote a sustainable environment for all.

A word from the President

Greetings,

I come from a world where health was always a priority—eating properly, exercising, and taking time for yourself. Improving people's health has been an interest of mine for many years. And I'm convinced we as human beings can influence our own quality of life. I've always been curious and passionate about life, and I've tried a number of ways to improve my physical condition, including massage, acupuncture, osteopathy, healthy diets, and even psychology. It's because of these efforts and that fascination that today, BainUltra® is a promoter of relaxation, health, and well-being.

Despite my natural desire to maintain balance in my life, I've been working hard to grow our company for more than thirty years, and, like many entrepreneurs, I've gotten caught up in the intoxication of accelerated growth. I've worked without counting my hours, racked up travel miles and changing schedules, eaten in restaurants, and juggled various demands that all seemed like priorities at the time, but I've neglected the most basic priority of all: myself. Who I am. The more I put into the project that is BainUltra®, the faster things seemed to go, and the lower my own energy levels fell. However strongly I've always believed in the importance of looking after yourself (myself), I've found it harder and harder to actually do so.

I don't think my story is unique—I think many of us share it. We live in a world that encourages us to recognize people for what they do—not for who they are. The pseudo-search for happiness drives us to accumulate possessions, to put so much into useless things, and drags us, often despite ourselves, into a whirlwind that, far from making us happy, drains our energy and threatens every aspect of our lives—our health, our personal and professional relationships, our finances, and our inner freedom. It's as if our life lived us instead of us living it. Well I say “enough!” I've decided to make a choice.

I've decided to slow down and get in touch with my inner life. To commit to daily rituals that give me energy and improve my physical, mental, and emotional state and replenish my energy. I've decided to treat this as a personal discipline, as well as to invite my employees, partners, and customers to do the same, through BainUltra and its products. I hope to reintroduce, into as many lives as possible, the art of living, of taking time each and every day for relaxation, health, and well-being. I want us all to become the artificers of our own lives and develop a deeper and more authentic relationship with ourselves, our loved ones, and our environment every day. We don't pretend to be able to change the world, but if through the BainUltra project we can inspire even one person to take up the challenge of personal well-being, the universal consciousness will be raised and our world will become a better place, one tiny step at a time.

Take care of yourself, and thank you.

Henry Brunelle, President

BainUltra 3 product platforms

therapeutic baths

ThermoMasseur®

The ThermoMasseur® trademark was registered in 1981—the world's first Hydro-thermo massage® to use air jet technology. BainUltra is not only the originator of air jet baths, but also the industry leader for Hydro-thermo massage® (combined action of Thermotherapy®, massage therapy, and hydrotherapy).

ThermoMasseur offers a real, deep-down massage for muscles and joints, noticeably stimulating the nervous system.

Our unique Geysair® technology reheats and humidifies air jets, providing a real sensation of warmth on your skin, and optimizing the therapeutic benefits of the Hydro-thermo massage. **Geysair is included on all BainUltra ThermoMasseurs baths.**

**THERMOMASSEUR®
WITH GEYSAIR®,
THE BEST MASSAGE
A BATH CAN GIVE®.**

Therapies Multiple benefits

Complementary therapies also allow the bather to regain his vitality thanks to the vibrations of the colors on the senses with the chromatherapy (Illuzio), the effect of the heat on the body which Thermotherapy® (WarmTouchShell®) provides and the addition of essential oils to the bath water.

- **AromaCloud®**, an essential oil diffuser with new technology that maximizes aromatherapy benefits
- **WarmTouchShell®** heating zones, for a sustained Thermotherapy® experience delivered through the heated backrest, headrest, and seat
- **Chromatherapy**: six colors that provide a host of therapeutic benefits.

NEW

With BainUltra's characteristic innovation and creativity, **ILLUZIO**, a NEW chromatherapy system has been developed with hidden LED that leaves the bath's inner shell completely intact and smooth.

Illuzio is available on: Evanescence, Essencia, Charism, Citti, Nokori, Balneo, Esthesia, Monarch, Opalia, Origami, Amma, & Inua.

These therapies stimulate the senses for an experience in absolute comfort, helping you truly let go and attend to the present moment.

All our therapeutic baths reflect BainUltra's priority: to constantly improve our products to provide a more complete therapeutic experience.

BainUltra

3 product platforms (continued)

therapeutic care units

The Therapeutic Care Unit platform is a BainUltra exclusive. These technological innovations harness the power of multiple therapies in a single delivery system that fits into a bathroom, though it is not part of the bath.

Our units provide high-level therapeutic experiences designed to bring about a change of physical, mental, and emotional states and energy levels.

The platform features Vedana®, which harmoniously blends five therapies: dry-heat Thermotherapy®, Light Therapy®, chromatherapy, aromatherapy, and Sound Therapy®.

This therapeutic care unit fits right into your shower and is a complete all-in-one system—the perfect addition to your personal care session in a special space in your home set aside for health and wellness rituals.

VEDANA®, A GUIDED MEDITATION EXPERIENCE TO CHANGE THE USER'S EMOTIONAL STATE.

AKAŠA® complementary products

AKAŠA®, INCREASE THE THERAPEUTIC BENEFITS OF YOUR WELLNESS RITUALS.

AKAŠA® is a line of unique complementary products including specially designed furniture and care products crafted to enhance the therapy experiences of our other platforms.

These products are just the thing to help you ease into and out of your care rituals, or transition between them, and craft a therapy session tailored to your specific needs.

Before a personal care ritual, you can use our **espalier** for self-guided stretching.

Transitioning between two care rituals: take time out, seated comfortably in your **ergonomic chair** or on your **footrest**, with your back to the wall.

For deep rest, use the **universal legrest** and the **bath pillow** for optimal comfort.

To put the final touch on a complete care ritual and make the most of the therapeutic properties of our products, you can absorb **essential oils** through your skin with a Hydro-thermo massage session or breathe them in during a therapeutic care unit session.

These are just a few ways to customize your personal care rituals.

The 5 advantages of Thermomasseur® bath

THE AIR JET BATH HAS COME A LONG WAY SINCE ITS EARLY DAYS, offering improved Hydro-thermo massage® therapy and providing the best possible overall health benefits. The 5 advantages of BainUltra's ThermoMasseur® bath are the result of the company's extensive expertise and innovative flair.

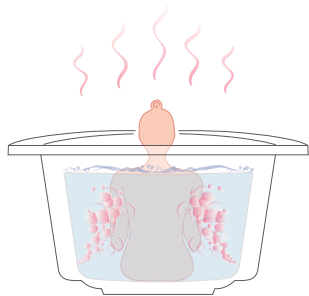

THE BEST MASSAGE A BATH CAN GIVE®

The **number and strategic positioning of the air jets**, powered by a **600 Watt turbine**, deliver an effective, even massage to specific acupressure points located all over your body, including your legs, back, and arms.

Our inverted V backrest provides a perfect massage from the lower back to the nape of your neck.

The raised seat lets you specifically target the back of your legs.

Our Geysair® technology reheats and humidifies the air jets to maintain water temperature and provide a longer-lasting, more comfortable Hydro-thermo massage. **Geysair is included on all BainUltra ThermoMasseurs baths.**

THE ULTIMATE COMFORT

All our tubs are **thoughtfully designed** to be as ergonomic as possible. Our aim is to provide bathers the ultimate in comfort, allowing them to truly relax and feel tension slip away during the massage.

The molded headrest, armrest, and footrest support and cradle the body, for sublime comfort.

The heated backrest extending from the lower back to the nape of your neck helps soothe your muscles and relax your body.

Grab bars make it easy to get in and out of the tub.

THE BEST HYGIENE

Hygiene is an important factor in overall health, which is why BainUltra has developed a unique, superior drainage system with the following features:

- **Conduits that drain and dry fully**, so there is no stagnant water
- **A drying cycle** that activates automatically
- An ingenious, **no-maintenance system**

COMBINED THERAPIES

BainUltra's core mission is to promote relaxation, health, and well-being, which is why our focus has always been on incorporating **therapies that maximize the therapeutic benefits of our products**. Depending on your personal preferences, you can add complementary therapies such as **chromatherapy** and **aromatherapy** to your ThermoMasseur bath.

EASY INSTALLATION & PEACE OF MIND

Every BainUltra product is designed to offer a host of sublime benefits! And with our attention to product development, your satisfaction is guaranteed.

As easy to maintain as a regular tub. No valves. No pipes. No water circulating in the conduits. The only mobile part is the turbine.

Made from high quality, non-porous acrylic, to resist scratches and discoloration.

Easy to use and install. Simply plug it in—the system even runs without water, with no risk of damaging the turbine.

20-year warranty on your bathtub (acrylic and turbine) and 5 years on electronic components and therapeutic technologies.

The safest system around, requiring no suction or minimum water level.

VIBE™ **NEW COLLECTION**

VIBE™ is a new collection of therapeutic bathtubs with minimalist and contemporary flair. The collection is perfect for urban city dwellers who want to bring value and refinement to smaller bathrooms. The VIBE collection is the first offering from BainUltra's urBAIN category to address the needs of younger, sophisticated bathers. Inspired by the city skyline and architectures of cosmopolitan cities, you can feel miles away from the streets below as you rest your mind, body and spirit in an expertly crafted bath.

Designed to fit in smaller installations without compromising the quality, comfort and ergonomics of a therapeutic bath. VIBE helps create an urban oasis of sensual therapies that allows the bather to recharge. The clean lines, pure design and sloping walls bring class, sophistication and style to even the smallest of spaces.

Options available with VIBE

- ILLUZIO - Chromatherapy with invisible LED
- ULTRAVELOUR - Matte finish

DESIGN

BainUltra's VIBE™ therapeutic baths are offered in the Thermomasseur (with Geysair® hot air system) and in the TUB category to which you can add Illuzio chromatherapy and WarmTouchShell thermotherapy technologies.

A LEADER IN WELLNESS

The stress modern life puts on the body adds up; walking on concrete in fashionable but uncomfortable shoes strains the back, as does sitting in an office chair for many hours in an unnatural position... To compensate people exercise, go to the gym, do yoga, etc. Yet, that also taxes the body. To top it all, the pace of modern life, the stress of juggling a career and an active social life can also exhaust the mental and emotional state of a person.

VIBE™ allows you to take a moment for yourself, to recharge and help heal your mind and body. Hydro-thermo massage® helps ease back pain, increases circulation, reduces tension and stress as it helps the body heal and eliminate toxins. Add Illuzio® chromatherapy to change your state to help energize, calm, rebalance and recharge.

Without taking time regularly to disconnect from the world and heal yourself, you have less energy, focus and drive to live your best life.

SCALA™

Scala™, a new collection of bathtubs with luxurious, modern design and classic elegance.

This freestanding bathtub has an aesthetic refinement that translates into a contemporary version of the Rococo style bathtub on lion's feet.

© SCALA 7242

Slide into a Scala 7242 and enjoy a wider more comfortable seat and backrest as well as integrated headrests to fully cherish moments of well-being and relaxation.

Options available with SCALA

- ILLUZIO - Chromatherapy with invisible LED
- ULTRAVELOUR - Matte finish

DESIGN

Available in the Thermomasseur® category, Scala offers all the therapeutic benefits of Hydro-thermo massage®. The spirit of this collection reveals a sophisticated style through the harmony of its curves, an extension of the outer shell on metal feet and wider front and rear decks. In addition, metal armrests available in different colors match perfectly to the feet.

CHARISM®

With CHARISM® Collection, BainUltra has broken the mold yet again, transcending conventional approaches to therapeutic baths.

- These utterly original styles feature a distinctive touch of color that defines the interior from the exterior of the tub. This rich swath of understated color contrasts with the shell of the bath, imparting a modern, artful appeal.
- Charism collection baths are ideal for smaller spaces, but also provide plentiful comfort—enough to accommodate two bathers.

© CHARISM 5736

The inner shell of Charism baths is sleek, free of grab bars or armrests, so the user can seek out naturally comfortable bathing positions.

AMMA®

The word AMMA® takes its origin in the word “massage” as represented by two Chinese characters, AN and MO, meaning “calm through touch”.

- The ergonomics of the bath interior (oblate or egg-shaped) offers superior comfort and an enhanced Hydro-thermo massage® experience.
- Amma features the widest range of size and installation options.

Options available with AMMA

- ILLUZIO - Chromatherapy with invisible LED

The **inverted V backrest** allows your neck and spine to be massaged perfectly.

Integrated armrests, available with most models, are sculpted to optimize comfort.

The **molded, heated headrest** softly cradles and soothes your neck.

The **raised seat** optimizes leg massage.

© AMMA OVAL 7242 (FREESTANDING)

DOUBLE YOUR PLEASURE

For those times when you want to share your massage experience, the two-person bath in the Amma collection offer independent temperature controls for the backrests and headrests of each bather. So you get togetherness and personalized comfort.

PERSONALIZE YOUR FREESTANDING BATH

- 1 Choose **your bath's color** from among a variety of standard and optional colors.
- 2 Choose a wood **finish for your base** or match its color with the same of the bath.
- 3 Choose the **outer shell's color** from among a variety of standard colors.

VIBE™ **NEW COLLECTION**

VIBE™ is a new collection of therapeutic bathtubs with minimalist and contemporary flair. The collection is perfect for urban city dwellers who want to bring value and refinement to smaller bathrooms. The VIBE collection is the first offering from BainUltra's urBAIN category to address the needs of younger, sophisticated bathers. Inspired by the city skyline and architectures of cosmopolitan cities, you can feel miles away from the streets below as you rest your mind, body and spirit in an expertly crafted bath.

Designed to fit in smaller installations without compromising the quality, comfort and ergonomics of a therapeutic bath. VIBE helps create an urban oasis of sensual therapies that allows the bather to recharge. The clean lines, pure design and sloping walls bring class, sophistication and style to even the smallest of spaces.

Options available with VIBE

- ILLUZIO - Chromatherapy with invisible LED
- ULTRAVELOUR - Matte finish

DESIGN

BainUltra's VIBE™ therapeutic baths are offered in the Thermomasseur (with Geysair® hot air system) and in the TUB category to which you can add Illuzio chromatherapy and WarmTouchShell thermotherapy technologies.

A LEADER IN WELLNESS

The stress modern life puts on the body adds up; walking on concrete in fashionable but uncomfortable shoes strains the back, as does sitting in an office chair for many hours in an unnatural position... To compensate people exercise, go to the gym, do yoga, etc. Yet, that also taxes the body. To top it all, the pace of modern life, the stress of juggling a career and an active social life can also exhaust the mental and emotional state of a person.

VIBE™ allows you to take a moment for yourself, to recharge and help heal your mind and body. Hydro-thermo massage® helps ease back pain, increases circulation, reduces tension and stress as it helps the body heal and eliminate toxins. Add Illuzio® chromatherapy to change your state to help energize, calm, rebalance and recharge.

Without taking time regularly to disconnect from the world and heal yourself, you have less energy, focus and drive to live your best life.

ESTHESIA®

BainUltra invites you to discover the ESTHESIA® Collection, our newest expression of beauty in the world of therapeutic bath.

- Neoclassically inspired Esthesia baths boast clean, purely geometric designs. Their elegant, luxurious pedigree means they're right at home in almost any cultural and architectural setting.
- With their pure oval inner shell, Esthesia baths can accommodate two people in total comfort.

The inner shell is free of grab bars or armrests, preserving the clean lines that are the hallmark of the Esthesia Collection. The deck design is not only original, it's also spacious and practical.

Options available with ESTHESIA

- ILLUZIO - Chromatherapy with invisible LED
- ULTRAVELOUR - Matte finish

DESIGN

The deck shape is not only original, it's also spacious and practical.

CITTI®

CITTI® is derived from the sanskrit for “free spirit.” At the same time, the name evokes today’s great cities: these are the perfect baths for urban living.

- Bath can be installed in an alcove (between 3 walls), perfect for smaller spaces such as those found in urban dwellings.
- Ideal for making the most of a small space by turning it into a place to experience multiple therapeutic experiences.

© CITTI 6032 WITH INSERT (ALCOVE)

The backrest is at a 15° angle to create an optimal interior space.

An insert is available that can be positioned on either the left or right side of the bath to hold the AromaCloud® unit or soap and shampoo (Citti with Insert).

Options available with CITTI

- ILLUZIO - Chromatherapy with invisible LED
- ULTRAVELOUR - Matte finish

DESIGN

Its unique design offers numerous installation possibilities for smaller bathrooms.

AROMATHERAPY
For the Citti Collection, the
AromaCloud can be installed on
the deck or on the insert of the bath.

© CITTI 6032 WITH INSERT (ALCOVE)

© CITTI 6032 WITHOUT INSERT - FRONT OVERFLOW

A surprise bonus to the ho so convenient Citti collection. This bathtub designed for alcove installation is now available with a front overflow at the foot of the bath, perfect for a bathroom renovation without having to change out a standard plumbing setting.

INUA®

In Inuit spirituality, “Inua” means “everything that lives.” INUA® refers to the universal soul that unites all things in nature.

- Inua is the next generation of TMU. Its main benefits are therapeutic, along with improved design.
- The line features a second-generation therapeutic comfort cushion and inverted V for a massage that reaches higher, covering the whole spine.

Options available with INUA

- ILLUZIO - Chromatherapy with invisible LED
- ULTRAVELOUR - Matte finish

THERAPEUTIC BENEFITS AT THEIR BEST

Inua is the latest evolution in our TMU line of therapeutic baths. Hydro-thermo massage®, an inverted V design, a raised seat, a heated backrest, and chromatherapy are all key features of the Inua collection. They say everything has a soul. Inua invites you to reconnect with the life force within.

The **therapeutic comfort cushion**, combined with the inverted V, massages the lower back, helping flush out toxins, reduce stress, and prepare the body for sleep.

SLIM DECK

In addition to the standard deck height, Inua is offered with slim deck (1/2 in).

Made in Italy, this high quality urethane cushion offers remarkable durability. This flexible material hugs your body and supports your head perfectly. Its isolating properties will keep your body feeling warm all through the bath session. It is also removable.

WARNING: This product contains magnetic materials. It should not be used by individuals with a pacemaker, defibrillator, or any other electro-medical device.

© INUA 6636 (SLIM DECK 1/2 IN)

AMMA®

The word AMMA® takes its origin in the word “massage” as represented by two Chinese characters, AN and MO, meaning “calm through touch.”

- The ergonomics of the bath interior (oblate or egg-shaped) offers superior comfort and an enhanced Hydro-thermo massage® experience.
- Amma features the widest range of size and installation options.

Options available with AMMA

- ILLUZIO - Chromatherapy with invisible LED

The **inverted V backrest** allows your neck and spine to be massaged perfectly.

Integrated armrests, available with most models, are sculpted to optimize comfort.

The **molded, heated headrest** softly cradles and soothes your neck.

The **raised seat** optimizes leg massage.

BainUltra®

VEDANA®

VEDANA® is a Sanskrit and Pali word meaning “sensation.” In Buddhist culture, it refers to the state where we become conscious of our connection with the universe and of the communion of the physical and mental being.

- Only Vedana combines 5 therapies (Thermotherapy®, chromotherapy, Light Therapy®, aromatherapy, and Sound Therapy®) in a single unit. Therapies can be enjoyed independently or combined for a **powerful experience to change users’ emotional state.**

FREEDOM • HARMONY • WONDER • LOVE

FOUR EXPERIENCES TO RECONNECT WITH YOURSELF

Imagine being enveloped in a sensory experience that harmoniously blends 5 therapies, like a symphony. The sounds carry you away on a wave of melody. You breathe in the tiny droplets of essential oils, savoring the aromas while warmth, light, and color make your experience even more transformative.

A TOTAL EXPERIENCE

Vedana uses advanced technologies to integrate five proven therapies: aromatherapy, Light Therapy®, Sound Therapy®, chromotherapy, and Thermotherapy®. Take advantage of Vedana's pre-programmed sessions, or create your own. Vedana lets you achieve the harmony and balance you seek.

Visit our website for more information on the 4 experiences:
bainultra.com/therapeutic-care-unit/vedana/well-being

* These products can be sold separately.

REAL DAILY BENEFITS

Vedana® combines the best spa technologies and therapeutic techniques. That means luxury care equal to the world's best wellness establishments, at only a fraction of the cost. With Vedana, that special care you deserve is yours to be savored every day.

LIGHT THERAPY®

With its precision Litebook® technology, Vedana is the cutting edge in terms of light intensity, wavelength, and range.

AROMATHERAPY

The aromatherapy system operates with an essential-oil nebulizing diffuser, the most authentic and effective method available.

SOUND THERAPY®

The Vedana sound system totally surrounds you, covering up any other audible frequencies, and offers an exquisite sound experience.

THERMOTHERAPY®

The system can reach and maintain 175°F (80°C), the temperature recommended for authentic dry-heat Thermotherapy.

CHROMATHERAPY

Vedana diffuses colors in precise wavelengths that maximize the benefits of your therapeutic care, in accordance with your needs at a given moment.

COMPLETE THERAPY

The Vedana discovery box includes a welcome booklet, a user guide, a guide to your wellness, and a nebulizing diffuser for aromatherapy and essential oils.

Two 30-minute preset sessions are available. Vivere brings you to a place of replenishment where you experience a profound encounter with yourself, while Echo helps you to let go and lose yourself in contemplation.

75 THE INSPIRENC BATHROOM®

78 THE THERAPIES

THE ESPALIER

Start your morning ritual with stretching exercises to wake up your body.

Combine the universal massage table and espalier to make your exercises more comfortable.

Go through a range of activities to **stretch your muscles** and release the day's tensions.

Using the espalier in combination with the Thermo-Masseur® will help you become more centered and aware of your body.

See the exercise booklet specially designed to help you explore your new equipment. This booklet was designed and created with the Kinesiology Clinic at Laval University in Quebec City.

The espalier's origin lies in ancient rituals, specifically the ritual practice of Roman soldiers who stretched before heading into battle. Evokes the shape of a tree.

- Integrating the espalier into the Insuperience Bathroom lets users incorporate daily stretching exercises and enhance the therapeutic benefits of other care rituals.
- The espalier is a unique, one-of-a-kind accessory perfect for a pre-care ritual warmup, a transition between different care rituals, or the finishing touch to a health ritual.

THE UNIVERSAL LEGREST

Installed on the tub floor, the universal legrest lets you elevate your legs for greater relaxation.

It can be removed, allowing different bathers to find their own comfortable positions.

Innovative design is intended for use in the bath.

The wood is meant to retain its original appearance after immersion in the bath.

Together with the ThermoMasseur®, the universal legrest provides natural support to facilitate total relaxation.

Western red cedar is the wood of choice for places where moisture is present. That's why we selected it for the relaxation chair, footrest, and our universal legrest—items that are designed specifically for the bathroom. Because it is a softwood, it is comfortable when used in relaxing settings and will develop a lovely soft patina over time.

The universal legrest is built with BainUltra's trademark expertise in products that enable users to find the ideal body position to fully benefit from the Hydro-thermo massage®.

- The legrest lets bathers of all shapes and sizes enjoy Hydro-thermo massage in a relaxed position. This overcomes size constraints and gives them access to a wider range of bath options.
- Crafted from red cedar and finished with marine varnish, the legrest is designed to be submerged without damaging its materials.

COMFORT CUSHION

Made in Italy, this high quality urethane cushion offers the best comfort possible and bonifies the Hydro-thermo Massage® experience benefits.

This flexible material hugs your body and supports your head perfectly. Its specialshape with the inverted V creates a better massage all along the spine.

It will adhere naturally to the bath. No magnets are used.

THE BATH PILLOW

Finesse, smoothness and sturdiness come together to offer the bather more comfort and well-being.

Wisely placed by bather to the desired position, the bath pillow supports the neck wonderfully to offer the upmost in comfort and a feeling of complete relaxation and increased benefits.

RELAXATION CHAIR & FOOTREST

The chair and footrest provide the ideal seating during Vedana® sessions.

Because the **footrest** was designed to be extremely comfortable, you can use it solo when space is limited, resting your back on the nearest wall.

Its **space-saving shape** suits most bathrooms.

Taking a **moment to relax** in the chair is an excellent way to transition into or out of a treatment.

Designed to withstand the water and humidity found in bathrooms.

In combination with a ThermoMasseur® session, the chair provides a comfortable way to prolong the resulting feeling of well-being.

Available in a limited edition, the chair is handmade by local craftsmen. It comes with a certificate of authenticity.

BainUltra designers drew on their knowledge of ergonomics to create the relaxation chair and footrest, specially designed to be part of a relaxation, health, and wellness ritual in the Insperience Bathroom.

- The chair allows you to transition between your various treatments.
- Light and easy to move around. Designed to withstand your Vedana's heat and humidity.

BAINULTRA ESSENTIAL CARE PRODUCTS

Maximize the benefits of your bath with our exclusive line of Essential Care products. Our Essential Care products feature only the purest ingredients and help make your bath time a total wellness experience.

Nordic spirit and Fruitful Evolution essential oils are offered with the AromaCloud®. Add water and a few drops of oil in the diffuser and enjoy all the benefits.

Warranty

OUR PRIDE IS WARRANTED

At BainUltra®, we are proud of the quality of our products. Our manufacturing process favors artisanship over automation. All of our products are designed, manufactured, and assembled by a team of highly trained craftspeople who are passionate about their work. Workers make a full, documented inspection at every step of production.

YOUR RELAXATION IS GUARANTEED

With our 40 years of experience designing and manufacturing the BainUltra ThermoMasseur®, we have always maintained strict control over the production and quality of every element that goes into our products. Above all, we have 40 years of documented reliability and durability. The superior quality Lucite (Perspex®) acrylic that goes into the fabrication of most of our products largely contributes to their exceptional characteristics. That's why we can offer the strongest warranty on the market. We cover the therapeutic baths and turbines for 20 years* and Geysair®, AromaCloud®, Chromatherapy and WarmTouchShell® technology, and controls for 5 years*. All of which means that you can have peace of mind that you have purchased the very best bath product available.

WHY PURCHASE FROM AN AUTHORIZED DEALER ?

Purchasing your BainUltra product from an authorized dealer guarantees that you will benefit fully from all the advantages of our exceptional warranty and our remarkable after-sale service.

* Some restrictions may apply. Visit our website at bainultra.com to download our complete warranty program.

ULTRAVELOUR MATTE FINISH

UltraVelour by BainUltra is a matte finish full of noble purity designed for your utter enchantment.

Handcrafted with expert care, UltraVelour transforms your bath into a precious jewel of royal comfort.

Slip into this splendid showpiece and experience luxury and well-being combined in a moment of precious eternity.

PURE ACRYLIC

BainUltra has always designed high-quality baths in 100% pure acrylic, a substance with numerous proven benefits:

- Easy to clean.
- Non-porous and hygienic.
- Durable and low-maintenance.
- Light and easy to move.
- Adaptable assembly for easy integration of bath therapies.

BainUltra's UltraVelour finish is available in white only across a number of collections:

INSPIERIENCE BATHROOM®

LIFE STORIES MY WELLNESS RITUAL

Luis finds being in the mountains exhilarating. Julie prefers quiet walks through the woods. Paul's cares slip away when he's near the sea. The patter of raindrops lulls Leslee into a blissful state. Judy can lose herself in the scent of lavender, while Emily is really moved by music. After a tough workout, Jacob soothes sore muscles with a good soak. Sarah feels more creative when she's surrounded by the color yellow, while blue puts Eva in a mellow mood. As for Phil, a good massage and he's in heaven. What do they have in common? Each has created an Insperience Bathroom®—a special haven where wellness rituals can be enjoyed every day—and as a result, feels better than ever. What about you... what do you do to kick back and chill out?

SHH, I'M RELAXING! The Insperience Bathroom has become the home's new focal point, an artful way to incorporate relaxation, health, and wellness into our everyday routines. BainUltra will work with you to design an inviting, uniquely distinctive, calming space where you can attend to your passions and needs, surrounded by the objects that inspire you. This transformative project is also conceived and thought out so it can easily be adapted over time, forever mirroring your innermost attitudes about relaxation.

GIVE YOUR BRAIN CELLS A BREAK

Hello, my name is Alicia. I am a designer. I live in downtown Vancouver. Between my work and other projects I take on, my schedule is very hectic. In order to keep in shape, I walk to work every day and back at the end of the day. This 20-minute walk helps me to energize myself and clear my head. During the weekends, going to the countryside is a real pleasure. It gives me a chance to unwind, breathe the fresh air, and have fun in wide open spaces with my Irish/Welsh terrier. When I can, I love traveling to new places. Discovering their history and culture nourish my creative side.

For me, it is very important to have balance in my life, and my Inspierence Bathroom® helps me to achieve just that. In the morning I enjoy doing a few stretching exercises on the espalier before starting the day. At night, I need a quiet place to relax and reflect on my day. I created a ritual of therapies I can adjust to how I feel.

Natural stones combined with simple and pure lines define this peaceful oasis I have created for myself.

Alicia and her Inspierence Bathroom®

ESSENCIA® OVAL 7236:

Alicia chose this freestanding bath for its organic design and absolute comfort. With its 2 levels of air jets, it ensures the utmost massage benefits. It is the perfect start to energize her day or enjoy a relaxing moment.

VEDANA®:

Alicia chose the Vedana care unit for its 5 therapies (aromatherapy, chromatherapy, Light Therapy®, Thermotherapy®, and Sound Therapy®) in one system. The preprogrammed sessions can be used to create a ritual that is perfect for her mood. Vedana helps her achieve that balance and harmony in her life.

ESPALIER & RELAXING CHAIR:

Alicia chose the espalier for her morning stretching exercises. To complement her space the relaxing chair is ideal with the Vedana or in between sessions.

PROFESSIONALS BY DAY, ZEN MASTERS AT HOME

Anne, a nutritionist, and Paul, an engineer, have been together for 30 years. Both in their early 50s, they have two daughters who are now grown. After the girls moved out, Anne and Paul were eager to renovate their empty nest. They opened up three rooms to create space for an Insuperience Bathroom® totally dedicated to health, wellness, and relaxation. And so their longtime dream became reality, moving from “from intention to intuition.”

While Anne is by nature inquisitive, energetic, and passionate, she also has a deeply contemplative side. She’s a steadfast believer when it comes to listening to what our bodies tell us, understanding the soothing properties of color, aroma, and music, and that calmness helps us recenter our vital energies. As for Paul, he’s constantly pulled in all directions at work, under the gun with tight, stressful deadlines. His back and neck consequently get stiff, becoming increasingly painful as the day wears on. By the time he arrives home, he’s more than ready to de-stress and relax. In their sleek Insuperience Bathroom, Anne and Paul can each indulge in their rituals, deriving ever more pleasure as they feel their well-being increase. Upon awakening, Anne spends a few moments meditating in her ergonomic relaxation chair with a view of the trees outside, then enjoys a shower and light therapy session. Paul does the same, minus the meditation. After work, it’s time for a total relaxation session that incorporates massage, heat, color, sound, and essential oils. Amid the genuine calm of their Insuperience Bathroom, Anne and Paul find perfect harmony and pure happiness in everyday life.

Anne, Paul, and their Insuperience Bathroom®

AMMA THERMOMASSEUR®:

This air-jetted therapeutic bath lets Anne and Paul enjoy top-of-line massage treatments. Paul is a big fan of the Geysair warm air jets that deliver a deeper massage, from the epidermis right into the joints. As for Anne, she’s sold on the benefits of aromatherapy, using essential oils like eucalyptus and basil (inhaled for congestion or stress, respectively) and sandalwood oil massages to improve sleep. As their needs and cravings change, Anne and Paul can vary their approaches in order to continue to achieve a soothing experience.

RELAXATION CHAIR:

Whether they retreat to this special chair to meditate, contemplate, reflect, daydream, or think about future plans, Anne and Paul always emerge re-energized.

VEDANA®:

Anne and Paul looked forward to acquiring this special piece of equipment for a long time, and it has become a wellness essential. Vedana combines five proven therapies (Thermotherapy®, aromatherapy, chromatherapy, Sound Therapy®, and Light Therapy®) that serve as the basis for care rituals, inspiring heightened relaxation in users. Programming is stored in memory and can be modified to reflect the user’s particular needs.

BainUltra therapies

HYDRO-THERMO MASSAGE®

Massage and relaxation often go hand in hand. But more than that, massage is a proven medical approach that has been used for therapeutic purposes for over 4,000 years. It is recommended for a wide range of physical, emotional, and psychological conditions by:

- **Reducing stress**
- **Controlling anxiety and depression**
- **Relieving pain and stiffness**
- **Activating blood flow**
- **Stimulating the immune system**
- **Treating sports injuries**
- **Eliminating toxins**

BainUltra's Hydro-thermo massage® is the closest to a hands-on massage. It offers three types of massage in a single therapy: thermo massage, hydro-massage, and acupressure. It is considered equivalent to a professional massage, with the advantage that it is given in the comfort of your own home.

CHROMATHERAPY

Chromatherapy is defined as a treatment that uses the effect of color to bring about physical and other changes.

A scientifically proven technique, chromatherapy is not merely a decorative element. Rather it has a direct effect on one's physical and psychological condition.

As a powerful way to achieve balance and harmony, **color through its vibrations can calm, energize, or focus your thoughts.**

Six colors—blue, violet, red, orange, yellow, and green—are calibrated at different frequencies, each with a stimulating or soothing therapeutic purpose.

AROMATHERAPY

Aromatherapy is defined as the practice of using essential oils extracted from flowers, bark, or leaves to enhance physical and psychological well-being.

Aromatherapy is an integral part of Vedana®, our highly effective misting and diffusion technologies. Distilled and diffused essential oils enter the bather's respiratory system and reach the circulatory and lymphatic systems,

where they interact with cells to promote healing.

Some of the benefits of aromatherapy include:

- **Reducing your stress levels and anxiety**
- **Boistering your immune system**
- **Improving your mood**

View our **Aromatherapy Video on Youtube**

BainUltra therapies (continued)

LIGHT THERAPY®

Light Therapy® consists of using natural or artificial light to treat various health problems.

Daily exposure to light influences the cycle that regulates the production of serotonin and melatonin—two hormones essential to physical and psychological balance.

A daily 10 minute session of Light Therapy can have a remarkably energizing effect.

Some of the benefits of Light Therapy include:

- **Regulating the circadian cycle, for improved sleep**
- **Increasing your ability to concentrate**
- **Improving mood**
- **Reducing the effects of jet lag**

THERMOTHERAPY®

Thermotherapy® refers to the therapeutic use of heat.

Vedana releases dry heat (at low humidity) that triggers an increase in body temperature to boost the flow of oxygen and nutrients in the blood.

Dry heat penetrates deep down—through the epidermis and dermis—

to reach fat, muscles, and tissue, delivering multiple benefits to:

- **Revive skin and relax muscles**
- **Improve blood flow**
- **Eliminate toxins**
- **Help your body fight viruses**

SOUND THERAPY®

Sound Therapy® is the use of music (various wavelengths and frequencies) to re-establish physical and emotional equilibrium.

Depending on its musical composition, Sound Therapy can:

- **Reduce stress**
- **Improve symptoms of depression**
- **Stabilize mood swings**

Music, through its vibrations, has the power to modify molecular structure, because our tissue, bones, and organs are in a constantly vibrating state. In a healthy body, all the different parts vibrate harmoniously.
